This dynamic introductory book takes readers on a vivid exploration into the major musical cultures of the world by first presenting a lively vignette of a musical occasion, and then placing that occasion in the context of a general description of the society and musical culture. **KEY TOPICS** The book divides the world into ten major culture areas—and devotes a chapter to each, exploring the musical cultures of such fascinating lands as India, the Middle East, Indonesia, Sub-Saharan Africa, and Latin America. The presentation features a synthetic treatment of musical life and ideas about music, musical style, music history, and musical instruments; briefly describes additional musical genres or contexts; and considers recent developments. For individuals interested in the music of the world.
