CD and DVD Forensics Paul Crowley

CD and DVD Forensics will take the reader through all facets of handling, examining, and processing CD and DVD evidence for computer forensics. At a time where data forensics is becoming a major part of law enforcement and prosecution in the public sector, and corporate and system security in the private sector, the interest in this subject has just begun to blossom.

CD and DVD Forensics is a how to book that will give the reader tools to be able to open CDs and DVDs in an effort to identify evidence of a crime. These tools can be applied in both the public and private sectors. Armed with this information, law enforcement, corporate security, and private investigators will be able to be more effective in their evidence related tasks. To accomplish this the book is divided into four basic parts: (a) CD and DVD physics dealing with the history, construction and technology of CD and DVD media, (b) file systems present on CDs and DVDs and how these are different from that which is found on hard disks, floppy disks and other media, (c) considerations for handling CD and DVD evidence to both recover the maximum amount of information present on a disc and to do so without destroying or altering the disc in any way, and (d) using the InfinaDyne product CD/DVD Inspector to examine discs in detail and collect evidence.

*This is the first book addressing using the CD/DVD Inspector product in a hands-on manner with a complete step-by-step guide for examining evidence discs

* See how to open CD's and DVD's and extract all the crucial evidence they may contain

* Included free is a trial version of author's market leading software "CD/DVD Inspector"

From reader reviews:

Valerie Israel:

What do you think about book? It is just for students because they're still students or that for all people in the world, exactly what the best subject for that? Just you can be answered for that issue above. Every person has diverse personality and hobby for each other. Don't to be pushed someone or something that they don't need do that. You must know how great and important the book CD and DVD Forensics. All type of book is it possible to see on many methods. You can look for the internet methods or other social media.

Michael Colburn:

Hey guys, do you really wants to finds a new book to study? May be the book with the concept CD and DVD Forensics suitable to you? Often the book was written by famous writer in this era. The book untitled CD and DVD Forensics is the main one of several books in which everyone read now. This kind of book was inspired a number of people in the world. When you read this e-book you will enter the new dimension that you ever know ahead of. The author explained their thought in the simple way, so all of people can easily to recognise the core of this publication. This book will give you a lots of information about this world now. To help you to see the represented of the world in this particular book.

Ivory Hughes:

CD and DVD Forensics can be one of your starter books that are good idea. We recommend that straight away because this reserve has good vocabulary which could increase your knowledge in vocabulary, easy to understand, bit entertaining but nevertheless delivering the information. The author giving his/her effort to set every word into pleasure arrangement in writing CD and DVD Forensics but doesn't forget the main position, giving the reader the hottest in addition to based confirm resource facts that maybe you can be certainly one of it. This great information can certainly drawn you into brand new stage of crucial considering.

Peggy Nunes:

This CD and DVD Forensics is great guide for you because the content which is full of information for you who also always deal with world and also have to make decision every minute. This kind of book reveal it details accurately using great plan word or we can state no rambling sentences inside it. So if you are read this hurriedly you can have whole details in it. Doesn't mean it only offers you straight forward sentences but tough core information with wonderful delivering sentences. Having CD and DVD Forensics in your hand like having the world in your arm, facts in it is not ridiculous 1. We can say that no book that offer you world in ten or fifteen small right but this book already do that. So , this really is good reading book. Hello Mr. and Mrs. occupied do you still doubt that will?
