Construction Safety Management Raymond Elliot Levitt, Nancy Morse Samelson

Designing safety into every facet of your construction organization isn't just sensible, it's also profitable....

Featuring proven safety management methods gathered from fifteen years of research at Stanford University and used by the most successful construction managers in the industry, *Construction Safety Management* is a comprehensive blueprint for CEOs, job-site managers, foremen, safety professionals, and owners on safely managing construction work at every level and phase of a project. Incorporating these management practices and policies into a practical format of real-life case studies and summary action steps, this new updated Second Edition offers each member of the construction management team specific advice on effectively upgrading an organization's total safety performance, including:

- * Building a corporate culture of zero accidents
- * Planning for high project performance
- * Establishing accountability for safety
- * Eliminating drugs and alcohol from the job site
- * Maintaining a communications safety net
- * Achieving the dual goal of safety and productivity
- * Maintaining effective crews
- * Measuring safety performance
- * Monitoring contractors for safety

This new edition also reviews key requirements of the Comprehensive Safety and Health Reform Act of 1993 and discusses the potential of emerging management techniques and computing technologies for construction safety management, including Total Quality Management, partnering, robotics, automated process control, artificial intelligence, and expert systems.

"The Second Edition is even better than the first. The information is timely but what's even more important, the techniques work!" Raymond Hays, Director Environmental Safety and Health/QA RUST Construction Services

"The detailed guidance provided throughout the book will enable all segments and levels of the construction industry to increase productivity." Jim E. Lapping Director, Safety and Health Building and Construction Trades Department AFL-CIO

From reader reviews:

Gary Flint:

People live in this new moment of lifestyle always make an effort to and must have the spare time or they will get lot of stress from both way of life and work. So , when we ask do people have free time, we will say absolutely sure. People is human not really a robot. Then we consult again, what kind of activity do you have when the spare time coming to you of course your answer will probably unlimited right. Then ever try this one, reading ebooks. It can be your alternative in spending your spare time, often the book you have read is actually Construction Safety Management.

Grace Seals:

Playing with family in a park, coming to see the sea world or hanging out with good friends is thing that usually you may have done when you have spare time, and then why you don't try issue that really opposite from that. One activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of information. Even you love Construction Safety Management, it is possible to enjoy both. It is great combination right, you still wish to miss it? What kind of hang type is it? Oh can occur its mind hangout people. What? Still don't buy it, oh come on its identified as reading friends.

Ann Mickey:

The book untitled Construction Safety Management contain a lot of information on the idea. The writer explains the girl idea with easy method. The language is very straightforward all the people, so do certainly not worry, you can easy to read this. The book was published by famous author. The author brings you in the new time of literary works. You can read this book because you can read more your smart phone, or program, so you can read the book throughout anywhere and anytime. In a situation you wish to purchase the e-book, you can wide open their official web-site along with order it. Have a nice go through.

Adam Tonn:

As a scholar exactly feel bored to be able to reading. If their teacher expected them to go to the library or make summary for some reserve, they are complained. Just little students that has reading's internal or real their leisure activity. They just do what the educator want, like asked to the library. They go to generally there but nothing reading very seriously. Any students feel that studying is not important, boring along with can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore this Construction Safety Management can make you feel more interested to read.
