The Making of America W. Cleon Skousen

The United States of America has been blessed with the world's greatest political success formula. In a little over a century, this formula allowed a small segment of the human family—less than 6 percent—to become the richest nation on earth. It allowed them to create more than half of the world's total output in production and enjoy the highest standard of living in the history of the world.

In this book, we learn how the Founding Fathers discovered this success formula. Much of this discovery is told in the words of the Founders themselves, so that the reader can feel the power of their minds sweeping away thousands of years of bad government and illogical laws to formulate a whole new society based on human freedom.

By returning to the roots of the Founders' thinking, and contemplating the logic that they used in establishing the Constitution, we can better understand the challenges and solutions that confront us in today's political world.
