Handbook on large plastic pipes Krah Community

Some professionals or experts in civil engineering are still concerned about large plastic pipes. But objections are inappropriate, many amazing technologies wouldn't exist without large plastic pipes! Anxiously dealing with this modern technology is the wrong strategy, as it is explained clearly and detailed in this book. This technical handbook contains experience of the world-wide acting Krah Community. In illustrated reports technical as well as economical topics on large diameter plastic pipes are collected. For more than 30 years companies have been using the Krah technology to manufacture large diameter plastic pipes. The impressive properties of polyolefin and the exibility and e ciency of the production process provide perfect solutions for many applications, e.g.: - Sewage Systems - Water Treatment - Drainage Systems - Potable Water Supply Systems - Chemical Industry - Landfill Technology Also considered are general aspects as quality assurance, standardization and cost analysis. This handbook is an interesting lecture for engineers, planners, operators and contractors.
