College Algebra: Graphs & Models

John Coburn, J.D. (John) Herdlick

College Algebra: Graphs & Models John Coburn, J.D. (John) Herdlick

Three components contribute to a theme sustained throughout the Coburn-Herdlick Series: that of laying a firm foundation, building a solid framework, and providing strong connections. In the Graphs and Models texts, the authors combine their depth of experience with the conversational style and the wealth of applications that the Coburn-Herdlick texts have become known for. By combining a graphical approach to problem solving with algebraic methods, students learn how to relate their mathematical knowledge to the outside world. The authors use technology to solve the more true-to life equations, to engage more applications, and to explore the more substantial questions involving graphical behavior. Benefiting from the feedback of hundreds of instructors and students across the country, College Algebra: Graphs & Models emphasizes connections in order to improve the level of student engagement in mathematics and increase their chances of success in college algebra.

The launch of the Coburn/Herdlick Graphs and Models series provides a significant leap forward in terms of online course management with McGraw-Hill's new homework platform, Connect Math Hosted by ALEKS Corp. Math instructors served as digital contributors to choose the problems that will be available, authoring each algorithm and providing stepped out solutions that go into great detail and are focused on areas where students commonly make mistakes. From there, the ALEKS Corporation reviewed each algorithm to ensure accuracy. A unifying theme throughout the entire process was the involvement of the authors. Through each step, they provided feedback and guidance to the digital contributors to ensure that the content being developed digitally closely matched the textbook. The result is an online homework platform that provides superior content and feedback, allowing students to effectively learn the material being taught.

From reader reviews:

Steven Whitney:

Do you have favorite book? Should you have, what is your favorite's book? Guide is very important thing for us to know everything in the world. Each e-book has different aim or maybe goal; it means that reserve has different type. Some people truly feel enjoy to spend their time to read a book. They are reading whatever they consider because their hobby is definitely reading a book. Think about the person who don't like studying a book? Sometime, man or woman feel need book when they found difficult problem or maybe exercise. Well, probably you'll have this College Algebra: Graphs & Models.

Brandon Inouye:

Have you spare time for just a day? What do you do when you have much more or little spare time? Yep, you can choose the suitable activity regarding spend your time. Any person spent all their spare time to take a move, shopping, or went to the actual Mall. How about open or maybe read a book allowed College Algebra: Graphs & Models? Maybe it is to be best activity for you. You know beside you can spend your time together with your favorite's book, you can cleverer than before. Do you agree with it has the opinion or you have some other opinion?

Joseph Haner:

Reading a guide can be one of a lot of pastime that everyone in the world enjoys. Do you like reading book so. There are a lot of reasons why people love it. First reading a guide will give you a lot of new information. When you read a e-book you will get new information due to the fact book is one of a number of ways to share the information or even their idea. Second, examining a book will make you more imaginative. When you studying a book especially fictional book the author will bring one to imagine the story how the figures do it anything. Third, you could share your knowledge to other folks. When you read this College Algebra: Graphs & Models, you may tells your family, friends along with soon about yours e-book. Your knowledge can inspire different ones, make them reading a book.

James Gardner:

The guide with title College Algebra: Graphs & Models has lot of information that you can understand it. You can get a lot of advantage after read this book. This book exist new information the information that exist in this book represented the condition of the world today. That is important to you to be aware of how the improvement of the world. This specific book will bring you inside new era of the globalization. You can read the e-book in your smart phone, so you can read it anywhere you want.
