Ancient Egypt is shrouded in a mystique that has not, until now, been revealed. The golden age of Egypt, which existed before recorded history, occurred between 10,000 BCE and 3000 BCE. This period endured for millennia because of an esoteric sect of spiritual initiates within the Mysterie Schools. This powerful group consisted of the real pharaohs, or enlightened masters, of arcane knowledge and practices.

Within the Mysterie Schools, hieroglyphics were used to communicate universal messages of illuminated living; clothing, jewelry, and stone engravings symbolized levels of learning and stages of enlightenment; the Egyptian gods were a series of mystical concepts and ascended energies but never deities; and it was life, and not death, that was revered. The pyramids, temples, tombs, and sarcophagi were not for the dead but for the living initiates engaged in mystical practices like healing and trans-meditation.

Walk with us through this Book of Life and learn how color, sound, and energy were used to heal and raise human consciousness. Let this book be your guide to the magical world of the most influential esoteric group that humankind has ever known. Let the peace and light of that illuminated period in history bring you face-to-face with the mysterious, brilliant vision of your own nature.

Overview: The Book of Life is a book for enthusiasts of ancient Egyptian mysticism. Readers are taken on a journey through the archaic halls of the Mystery Schools that existed during the golden age of Egypt, more than three thousand years ago. The Book of Life is an objective and graphical account of the main teachings from the schools. The hieroglyphic high-alphabet of spiritual concepts taught in the Mysteries is explored in detail, and it is explained how this was different from the everyday literary alphabet. The Book of Life uncovers the real purpose of the sarcophagi and hidden valleys of tombs, and traces the Egyptian practices back to their ancestors from Atlantis as well as to times of extraterrestrial assistance.

Extraordinary truths are revealed in an ordinary way in this practical book of mystical wisdom. Truths that have remained hidden for thousands of years. Who built the Egyptian temples and why? What were they really used for and what form did the rituals take? Were the great pyramids and sacred valleys really for the dead, or were they designed for transcendental meditation of initiates? Where did the Egyptian pantheon of Gods originate from; or has our modern understanding of Egyptian Gods been confused within layers of tumultuous history? In what way do the Mystery Schools of ancient Egypt influence our lives today?

The Book of Life takes readers back to that glorious time in Egypt's history when to be a pharaoh was to be a spiritually enlightened person traveling the ever-ascending path to illumination. When color, sound, and energy healing were the currency in a world evolving towards unconditional love; and when humankind's connection to the heavens—to the source of its own understanding—was the magnificent uninterrupted view into their own hearts.
