Audiology: Science To Practice

Steven Kramer

Audiology: Science To Practice Steven Kramer

Distilled here is the experience, expertise, and, most of all, the knowledge of what students need to complete successful study in undergraduate audiology and speech-language pathology courses, or to gain a grounding in the subject when embarking on an AuD program. Steven Kramer has taught an introduction to audiology course for 20 years, and has truly designed this text with students in mind, providing a balanced coverage of the subject that is consistent with the material necessary for an introductory course. His book presents a comprehensive and challenging coverage of hearing science and clinical audiology, written in a style that makes new and difficult concepts easy to understand.
