Problems of Women Labourers in Construction Works in Chittoor District: Problems of Women Labour in Construction Works Dr V Nirmala createspace

Women play an important role in the development of human society. Woman is often described as the better half of man. Women's position has often been said, as an indicator of the level of development in any society. Women workforce participation rates, on the other hand, also related to their position. Today the actual position of woman in the world and particularly in developing countries like India is under threat. Rampant poverty, illiteracy, unemployment, ill health, violence, widespread exclusion and discrimination still remain. They are most serious problems which has been responsible for setting back goals of development of women all over the globe.
