Joe and I have been teaching this course to healthcare professionals and students since 1984. We know what works and what doesn't when it comes to helping our students be successful. We had to develop almost all of the study materials for our students by ourselves because very little existed at the time. The Zombie Notes Study Charts were some of the first study aids we developed to help our students learn a large amount of information very quickly. We know that this format works very well because hundreds of thousands of healthcare professionals and students, in hospitals and colleges all over the world, have used this handy, no-nonsense chart to help them successfully pass the BLS certification exams.

You'll find that the key to passing the certification exam and course lies in applying your knowledge through

questions and answers, not rote memory alone. Memorization is simply the first step to learning and committing the information to your long-term memory.
