Pharmacie galénique : Bonnes pratiques de fabrication des médicaments, 8e édition Alain Le Hir

La pharmacie galénique est non seulement l'art de préparer, conserver et présenter les nouveaux médicaments, mais est aussi une science appliquée aux affinités diverses et à prédominances tantôt technologiques (pharmacotechnie), tantôt biologiques (biodisponibilité). Cette 8e édition se distingue de la précédente par des actualisations correspondant aux évolutions des sciences et des techniques, mais aussi à celles qui découlent des apports récents des deux principaux référentiels de l'enseignement de la pharmacie galénique.
