Women: A Feminist Perspective

Women: A Feminist Perspective

This scholarly collection of essays on women by women in such fields as economics, law, sociology and political science provides an in-depth analysis of the issues and institutions that affect women's lives and answers the question, "Why Feminism?". Added chapters and information in this edition offer new dimensions to further enrich and clarify the substantive research on the "emerged" woman and the ways in which sexist values and attitudes still function to control or hinder her progress.
