Cold Front William H. Lovejoy

‘Lovejoy has proven himself a master storyteller.’ - Clive Cussler

At first, weather experts called it a record-breaking cold snap.

But after weeks of near Arctic temperatures, after heavy snows and severe storms all but paralyzed the United States and destroyed billions of dollars of vital crops and livestock, the President was forced to declare a national emergency....such sustained damage would kill millions and cripple America permanently.

Under Executive Order, intelligence specialist Colonel Brandon Barrett races to save his nation.

Pulling together a massive number of seemingly unrelated facts about recent Soviet military flights over Alaska, he breaks through layers of deception to expose a plot deadlier than ever before conceived.

Codenamed COLD FRONT, it's a plan to bring democracy to its knees by controlling our weather and the final stage was about to be launched...

Meanwhile, Barrett meets State Department analyst Barbara Morris, who captivates him in a completely different way.

Can he stop Cold Front's threatening plan before it's too late?

With the help of intelligent, brave and beautiful Barbara Morris, maybe he can stop the storm from rolling in, stop the terrorists' plans and save his country as a hero.

Cold Front is a gripping terrorist thriller set in the midst of the Cold War.
