How To Deal With Breakups And Get Back Your Ex J.P. Bradford

This guide was created through years of experience and tons of online help that was found to be useful. There is ton of misinformation the web including from people who have never successfully got their ex back. I was in pain and desperate so I turned to the internet for help. I've managed save a relationship that I thought was hopeless. I share only the method that proved to work for me and a few of my close friends.

By no means do I claim this is the definite way to get your ex back as different cases have different circumstances. I will promise that it is a great read for someone who just went through a breakup to help you understand what is going on better to help ease the pain. For the price of a value meal at your local fast food restaurant, is it that much to lose?

This book is not fancy. It is made by your average guy who doesn't have any experience what so ever who wants share information he has picked up over the years. It has not been professionally proofread but the information given should make up for it. I'd like to think it is an easy read and hopefully you'll follow and understand what I'm trying to say.

P.S. I do apologize for the awful book cover.
