It is easy to explain why Garrison has never been adopted as a popular hero in America. He gave a purge to his countrymen, and the bitter taste of it remained in our mouths ever after. Moreover, the odium of Slavery, which he branded on America's brow, seemed to survive in the very name of Garrison, and we would willingly have forgotten the man. After the Civil War there was not, apparently, time for our scholars to think about him. Certain it is that the educated American has known little about him, and shies and mutters at his name. And yet equally certain is it that the history of the United States between 1800 and 1860 will some day be rewritten with this man as its central figure.

The fog of self-consciousness that has hung above our Anti-slavery period will be dissipated in the minds of our historians, and we shall see Garrison as one of our greatest heroes — a man born to a task as large as his country's destiny, who turned the tide of his age, and left an imprint of his mind and character upon us, as certain and as visible as the imprint left upon us by Washington himself.
