John Dalton

A New System of Chemical Philosophy (Cambridge Library Collection - Physical Sciences) John Dalton

The renowned English chemist and meteorologist John Dalton (1766-1844) published *A New System of Chemical Philosophy* in two volumes, between 1808 and 1827. Dalton's discovery of the importance of the relative weight and structure of particles of a compound for explaining chemical reactions transformed atomic theory and laid the basis for much of what is modern chemistry. Volume 2 was published in 1827. It contains sections examining the weights and structures of two-element compounds in five different groups: metallic oxides; earthly, alkaline and metallic sulphurets; earthly, alkaline and metallic phosphurets; carburet; and metallic alloys. An appendix contains a selection of brief notes and tables, including a new table of the relative weights of atoms. A planned second part was never published. Dalton's work is a monument of nineteenth-century chemistry. It will continue to be read and enjoyed by anybody interested in the history and development of science.

From reader reviews:

Brandon Riddle:

Nowadays reading books become more and more than want or need but also get a life style. This reading addiction give you lot of advantages. The huge benefits you got of course the knowledge the rest of the information inside the book which improve your knowledge and information. The details you get based on what kind of e-book you read, if you want drive more knowledge just go with schooling books but if you want really feel happy read one having theme for entertaining for example comic or novel. Often the A New System of Chemical Philosophy (Cambridge Library Collection - Physical Sciences) is kind of book which is giving the reader unpredictable experience.

Linda Manuel:

Often the book A New System of Chemical Philosophy (Cambridge Library Collection - Physical Sciences) will bring that you the new experience of reading a book. The author style to clarify the idea is very unique. Should you try to find new book you just read, this book very ideal to you. The book A New System of Chemical Philosophy (Cambridge Library Collection - Physical Sciences) is much recommended to you to see. You can also get the e-book in the official web site, so you can more readily to read the book.

Delores Keener:

Spent a free a chance to be fun activity to try and do! A lot of people spent their free time with their family, or their particular friends. Usually they undertaking activity like watching television, gonna beach, or picnic inside the park. They actually doing ditto every week. Do you feel it? Do you need to something different to fill your free time/ holiday? Can be reading a book can be option to fill your totally free time/ holiday. The first thing that you will ask may be what kinds of publication that you should read. If you want to try out look for book, may be the reserve untitled A New System of Chemical Philosophy (Cambridge Library Collection - Physical Sciences) can be good book to read. May be it may be best activity to you.

Michael Kendig:

Are you kind of busy person, only have 10 or 15 minute in your day to upgrading your mind talent or thinking skill also analytical thinking? Then you are having problem with the book in comparison with can satisfy your small amount of time to read it because all this time you only find e-book that need more time to be read. A New System of Chemical Philosophy (Cambridge Library Collection - Physical Sciences) can be your answer since it can be read by anyone who have those short extra time problems.
