Emergency Medicine: Stroke: Evaluation and Intervention (Audio-Digest Foundation Emergency Medicine Continuing Medical Book 28) Audio Digest

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners – physicians and other healthcare professionals – with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice.

Audio-Digest Emergency Medicine is specifically designed to provide the participant with state-of-the-art information, including, but not limited to, the care of patients presenting to the emergency department in such areas as:

Airway management
Asthma
Bite wounds
Burns
Cardiovascular emergencies
Domestic violence
Drug abuse
Envenomations
Infectious diseases
Ingested foreign bodies
Gastrointestinal emergencies
Psychiatric emergencies
Risk management
Pain management
Poisoning & Toxicology
Resuscitation
Sports injuries
Trauma

Educational Objectives

The goal of this program is to improve the recognition and treatment of acute stroke. After hearing and assimilating this program, the clinician will be better able to:

1. Distinguish strokes from other conditions capable of causing stroke-like symptoms (ie, mimics).
2. Recognize focal deficits associated with specific types of strokes.
3. Apply advanced imaging technology to guide and improve the treatment of acute stroke.
4. Use tissue plasminogen activator (tPA) to treat patients who have had a stroke.
5. Describe use of endovascular devices to remove clots and facilitate reperfusion after an initial stroke and in patients with residual occlusions after tPA therapy.
